Review			

1. Safety

1.1. For the purpose of this policy, 'equipment' means toys and resources that the children have access to on a daily basis.

1.2. All staff members are responsible for checking all the toys and resources are clean and safe for the children to use on a regular basis.

1.3. The toys are checked regularly for any risks they might pose to young children including small parts and broken toys. These are dealt with as necessary.

2. Resources

2.1. We aim to provide an environment that allows children to explore using all their senses. All the resources are made from wood or other natural materials.

2.2. The resources we use create a gentle, calm environment in which children can grow and learn at their own unique pace.

2.3. All toys are accessible to children at children height. All furniture is at child height to encourage independence and confidence in completing daily tasks.
